

List of Australian Recognised Medical Specialties

The List of Australian Recognised Medical Specialties includes those organisations, specialties and qualifications that are recognised as medical specialties in Australia, as approved by the Minister for Health.

The list follows the format of Schedule 4 of the Health Insurance Regulations 1975, which is the other list that contains the recognised specialties approved by the Minister. Unlike Schedule 4, however, listing on the List of Australian Recognised Medical Specialties does not relate to the *Health Insurance Act 1973*. A listing here permits medical specialist training providers to participate in the AMC's accreditation of specialist medical education, training and professional development programs.

The specialties marked with an asterisk and in bold type in the following list are not recognised for the purposes of Schedule 4 of the Health Insurance Regulations 1975 (*Health Insurance Act 1973*).
